Inder our artillery fire, directed on the enemy's points of departure, the French were only successful at certain points in bringing their troops forward for the attack. Wherever they did advance they were driven back again with heavy losses. Repeated rushes on the high road from Sommepy to Souain broke down completely. North and northeast of Beausejour farm and northeast of Ville-sur-Tourbe their attacks were entirely unsuccessful. Eastern theater of war: Army group of Field Marshal von Hindenburg—The enemy yesterday again began attacks of greater importance between Lake Drisitiata and Krewno. The attacks were either repulsed or broke down under our fire. The enemy obtained initial successes at Kosjany and south of Lake Wiesiew, but by counter attacks the situation was again restored to our favor, with heavy losses to the enemy. es to the enemy.

South of the Pripet, after engagements on the middle Styr, in the zone of the Kovel-Sarny railway, our troops occupied the villages of Voulk, Kollouzskais. Optovo, Voltchitzke and Medvieshka. In some places the enemy retired in disorder.

In the Caucasus front there have been no serious engagements on the whole of the front, except in the region of Van. At various points the Turks have attempted to advance in the direction of our frontier, but in all cases they were easily repulsed. Skirmishes between advance guards have occurred in the region of the Black sea coast southwest of Khopa and farther southwest as far as the confluence of the Choruk and Olta, in the region of Sawarchar. On the front of the confluence of the Choruk and Olta and farther southeast, in the direction of Lake Tartoum and as far as Khorassan, there have been some successful reconnoissances by our scouts.

Our batteries con-tinue to shell the approaches to Tor-

In the Felia valley, during the night of the 4th, the enemy tried to attack our positions on the Pontebba torrent, but was repulsed.

On the Carso plateau there have been the usual military actions. Many trains are again reported on the Trieste railroad between the stations of Nabresina and San Giovanni.

FRENCH STATEMENT. PARIS. October 6:

The bombardment in which both sides have been taking part has continued in the Artols district. It was particularly severe to the south of the forest of Givenchy. We have made some progress with hand grenades in the connecting trenches to the south-west of the chateau of La Folie. There has been reported from the remainder of the front nothing more than artillery fighting, in which both sides took part, particularly in the Champagne district, between the Meuse and the Moselle; to the north of Flirey and along the front in Lorraine, in the vicinity of Leintrey, Gondrexon and Domevre.
